SPECIAL CONSOLIDATED CHECKLIST

for the

Land Disposal Restrictions as of June 30, 1992

Note: 1) This consolidated checklist is intended for those States who have not yet adopted an LDR program. This checklist consolidates LDR rules from the first rule promulgated on November 7, 1986 through June 30, 1992, including the Third Scheduled wastes (i.e., from Revision Checklist 34 through Revision Checklist 106, 57 FR 28628, June 26, 1992). States wishing to adopt rules beyond June 30, 1992 should refer to the Special Consolidated Checklist for Phases I, II, III, and IV of the Land Disposal Restrictions, which consolidates all of the revision checklists after Revision Checklist 106. An alternative would be to refer to the individual revision checklists affecting the LDR program.

- 2) This checklist consolidates the changes to Federal code addressed by the following Land Disposal Restrictions (LDR) checklists:
- Revision Checklist 34 [51 <u>FR</u> 40572 (November 7, 1986), 52 <u>FR</u> 21010 (June 4, 1987)];
- Revision Checklist 39 [52 FR 25760 (July 8, 1987), 52 FR 41295 (October 27, 1987)];
- Revision Checklist 50 [53 <u>FR</u> 31138 (August 17, 1988), 54 <u>FR</u> 8264 (February 27, 1989)];
- Revision Checklist 62 [54 FR 18836 (May 2, 1989)];
- Revision Checklist 63 [54 FR 26594 (June 23, 1989)];
- Revision Checklist 66 [54 <u>FR</u> 36967 (September 6, 1989), 55 <u>FR</u> 23935 (June 13, 1990)];
- Revision Checklist 78 [55 FR 22520 (June 1, 1990)];
- Revision Checklist 83 [56 FR 3864 (January 31, 1991)];
- Revision Checklist 95 [56 FR 41164 (August 19, 1991)];
- Revision Checklist 102 [57 FR 8086 (March 6, 1992)];
- Revision Checklist 103 [57 FR 20766 (May 15, 1992)]; and
- Revision Checklist 106 [57 FR 28628 (June 26, 1992)]

The LDR "Checklist Reference" column indicates which of these checklists have affected each listed citation. Subsequent to promulgation of the first LDR rule (i.e., the rule addressed by Revision Checklist 34), checklists other than the LDR checklists have also affected certain sections of code addressed by the LDR checklists. The effects of these subsequent checklists are indicated in footnotes. Of special note are 270.42(o)&(p) and 270.72(e). In both cases, subsequent checklists either removed or redesignated these sections of code. The section numbering found in the associated LDR final rule for these paragraphs is used, rather than the new numbering found in the subsequent checklists.

An exception to the footnoting procedure is the effect which the Toxicity Characteristics Rule had on the TCLP procedure. Because the TCLP procedure is integral to the LDR requirements (see Note 6 below), this change made by Revision Checklist 74, a non-LDR checklist, is noted in the LDR checklist reference column. An explanatory footnote is also included.

3) The following Part 268 sections are not delegable to States because of the national concerns which must be examined when decisions are made relative to them: 268.5 (case-by-case effective date extensions) and 268.42(b) (application for alternate treatment method). "No migration" petitions under 268.6 will be handled by EPA, even though States may be authorized to grant such petitions in the future. States have the authority to grant such petitions under RCRA Section 3006 because such decisions do not require a national perspective, as is the case for

decisions under 268.5 or 268.42(b). However, EPA has had few opportunities to implement the land disposal restrictions and expects to gain valuable experience and information from reviewing "no-migration" petitions.

The provisions at 40 CFR 268.44(a)-(g) address general treatment standard variances. The authority for such variances is not delegable because these variances could result in nationally applicable standards for a new waste treatability group. The provisions at 40 CFR 268.44(h)-(m), on the other hand, address site-specific variances. In the HWIR-Media Proposal (61 FR 18828, April 29, 1996), EPA clarified that the authority to review and approve this second type of treatment variance can be delegated to States. Because there has been some confusion over how to handle the delegability issue in State regulations, some States may already have been inadvertently authorized for 268.44 site-specific treatment variances. EPA is requesting that States note in their HWIR-media program revision application, other authorization applications, or in official correspondence whether they believe they have been authorized for site-specific treatment variances. EPA will evaluate that aspect of a State's submittal to confirm the State's authorization. For further information see 61 FR 18828 (April 29, 1996) and 62 FR 64506 (December 5, 1997).

4) In the past, the nondelegable sections/paragraphs of the LDR regulations have been omitted from the LDR checklists because States could not assume the authority for them. However, this procedure has led to confusion among the States on how to handle the sections/paragraphs in their code. For this reason, the Agency has decided to include these nondelegable sections on the LDR checklists. To differentiate these sections from the delegable portions of the LDR restrictions, asterisks precede (a single row) and follow (a double row) each nondelegable section. If States have already filled out a version of this Consolidated Land Disposal Restrictions Checklist which does not include the nondelegable sections, they need not fill out a revised version containing these sections. This change in format was made only to improve clarity.

The Agency suggests that States incorporate the nondelegable portions of the LDR regulations into their regulations because this incorporation aids the regulated community in knowing that the extensions, exemptions and variances addressed by the nondelegable sections of code are available to them. It is essential, however, that States leave the terms "Administrator", "Federal Register" and "Agency" unchanged, i.e., States may not substitute analogous State terms for these Federal terms. Similarly, States incorporating by reference must be careful to exclude these sections from blanket substitutions of State terms for Federal terms. For a more complete discussion of issues surrounding nondelegable sections, see Appendix J of the State Authorization Manual (SAM).

- 5) Note that while 268.40 is delegable to States, "Administrator" in the following phrase "approved by the Administrator under the procedures set forth in 268.42(b)" should <u>not</u> be replaced in 268.40(b) with an analogous State term because it is referring to decisions under 268.42(b). Such decisions will be made by the EPA Administrator.
- 6) States do not need to adopt requirements equivalent to 40 <u>CFR</u> 268.10, 268.11, 268.12 and 268.13 because these sections of code contain the schedule by which EPA must evaluate wastes for land disposal restrictions. As such, these sections of code are not included in this consolidated checklist.
- 7) Note that the Toxicity Characteristic Leaching Procedure (TCLP) referred to by the Third Scheduled Waste Rule is the TCLP entered into the Federal code at 40 <u>CFR</u> 261 Appendix II by the Toxicity Characteristic Rule (55 FR 11798, March 29, 1990) and amended at 55 FR 26986 (June 29, 1990). (Both the Toxicity

Characteristic Rule and the June amendment are addressed by Revision Checklist 74.) The TCLP procedure previously located at 40 <u>CFR</u> Part 268, Appendix I and introduced by the Solvents and Dioxins Land Disposal Restrictions Rule (51 <u>FR</u> 40572; November 7, 1986; Revision Checklist 34) is the outdated version of the TCLP. Thus, States adopting the Third Third Scheduled Waste Rule must also adopt the new version of the TCLP. If a State has already adopted the Revision Checklist 34 TCLP, this version must be replaced with the Revision Checklist 74 TCLP. See Footnote 42 of this checklist.

- 8) Guidance regarding the use of the new TCLP versus the EP Toxicity Test may be found at 55 <u>FR</u> 22660 (June 1, 1990).
- 9) Adopting the alternate treatment standards for lab packs is optional. However, if a State chooses to adopt these alternate standards, all of the requirements related to these standards must be adopted, including all of the provisions added by the Third Third Scheduled Waste Rule (i.e., Revision Checklist 78) at 264.316(f), 265.316(f), 268.7(a)(8), 268.7(a)(9), 268.42(c), 268.42(c)(1)-(4), and Appendices IV and V to Part 268.

Guidance note: 268.5 is <u>NOT DELEGABLE</u>. States should see Note 3 at the beginning of this checklist regarding how to incorporate this section into their code.

PROCEDURES FOR CAS	SE-BY-CAS	E EXTENSIONS TO A	AN EFFECTIVE I	DATE		
application to EPA Administrator for an extension to effective date of any Part 268, Subpart C restriction; what the applicant must demonstrate:	34	268.5(a)				
good-faith effort to locate and contract with treatment, recovery, or disposal facilities nationwide to manage waste according to Subpart C effective date	34	268.5(a)(1)				
binding contractual commitment to construct or provide alternate treatment, recovery (e.g., recycling), or disposal capacity that meets Subpart D treatment standards; requirements when no treatment standards	34,39	268.5(a)(2)				

					STATE AN	ALOG IS:	
FEDERAL REQUIREMENTS	CHECKLIST REFERENCE	FEDERAL RCRA CITATION	ANALOGOUS STATE CITATION	EQUIV- ALENT	LESS STRIN- GENT	MORE STRIN- GENT	BROADER IN SCOPE
demonstration that alternative capacity cannot reasonably be available by effective date due to circumstances beyond applicant's control; how this must be demonstrated	34	268.5(a)(3)					
capacity being constructed or provided by applicant must be sufficient to manage entire quantity of waste	34	268.5(a)(4)					
detailed schedule for obtaining required permits or outline of how and when alternate capacity will be available	34	268.5(a)(5)					
arranged for adequate capacity during extension and documented in all site locations where wastes will be managed	34	268.5(a)(6)					
surface impoundment or landfill used must meet 268.5(h)(2) requirements	34	268.5(a)(7)					
certification by authorized representative signing an application	34	268.5(b)					
Administrator may request additional information	34	268.5(c)					

					STATE AN	ALOG IS:	
FEDERAL REQUIREMENTS	CHECKLIST REFERENCE	FEDERAL RCRA CITATION	ANALOGOUS STATE CITATION	EQUIV- ALENT	LESS STRIN- GENT	MORE STRIN- GENT	BROADER IN SCOPE
extension applies only to waste generated at individual facility covered by extension	34	268.5(d)					
Administrator may grant extension of up to 1 year from effective date; extension for 1 additional year if 268.5(a) demonstration can still be made; no extension beyond 24 months from 268, Subpart C effective date; length of extension determined by Administrator and basis; public notice and comment; final decision published in Federal Register	34	268.5(e)					
notify Administrator of change in certified conditions	34	268.5(f)					
written progress reports at intervals designated by Administrator; what progress reports must include; conditions for revocation of extension by Administrator	34	268.5(g)					
during period established by Administrator for which extension is in effect:	34	268.5(h)					
268.5(a) storage restrictions do not apply	34,39	268.5(h)(1)

SUBPART G - INTERIM STATUS								
CHANGES DURING INTERIM STATUS								
47	no reconstruction; changes do not include tank/container changes to comply with land disposal restrictions	30	270 72(e)					

- See the amendment to the rule addressed by Revision Checklist 39 at 52 <u>FR</u> 41295 (October 27, 1987), included on Revision Checklist 39.
- Paragraph 260.11(a) is also affected by Revision Checklist 67 (54 <u>FR</u> 40260, September 29, 1989) and Revision Checklist 73 (55 FR 8948, March 9, 1990).
- Paragraph 261.5(f)(2) is also affected by Revision Checklist 47 (53 FR 27162, July 19, 1988).
- Note that the "TC Rule," Revision Checklist 74 (55 <u>FR</u> 11798, March 29, 1990), has also made changes to 261.24(b).
- Paragraph 261.33(c) is also affected by Revision Checklist 41 (52 FR 26012, July 10, 1987).
- Note that the final rule for Revision Checklist 39 (52 FR 25787) gives Subpart E, 262.51 as the citation for the section titled "Farmers." This is <u>not</u> correct as the August 8, 1986 (51 FR 28664, Revision Checklist 31) final rule regarding exports changed this section and moved it to Subpart G, 262.70. This error in the final rule was detected when Revision Checklist 39 was developed, and the proper citation (262.70) was used on that checklist. This error was ultimately corrected at 53 FR 27164 (July 19, 1988; Revision Checklist 48).
- See the technical correction to the rule addressed by Revision Checklist 34 at $52 \, \underline{FR} \, 21010$ (June 4, 1987).
- Subparagraphs 264.13(a)(1) and 265.13(a)(1) are also affected by Revision Checklist 64 (54 <u>FR</u> 33376, August 14, 1989).
- This code is part of the optional requirements for the alternate treatment standards for lab packs under the Third Third Scheduled Waste Rule. If adopted, all of the requirements (i.e., 264.316(f), 265.316(f), 268.7(a)(8), 268.7(a)(9), 268.42(c), 268.42(c)(1)-(4), and Appendices IV and V to Part 268) related to these alternate treatment standards must be adopted.
- A new subparagraph was introduced into the code by Revision Checklist 78. The original subparagraph 268.1(c)(3) was introduced by Revision Checklist 34, modified by Checklist 39, then removed by Revision

Checklist 50, with 268.1(c)(4) redesignated as (c)(3). The redesignated subparagraph 268.1(c)(3) was subsequently removed by Revision Checklist 66.

- Subparagraph 268.1(c)(4) originated in Revision Checklist 34, was modified by Revision Checklist 39, redesignated as 268.1(c)(3) while the original 268.1(c)(5) was redesignated as 268.1(c)(4) by Revision Checklist 50, and finally removed by Revision Checklist 66.
- Subparagraph 268.1(c)(5) originated in Revision Checklist 39, and was revised by Revision Checklist 48. This text was redesignated as 268.1(c)(4), and new 268.1(c)(5) text was introduced by Revision Checklist 50. This subparagraph was finally removed by Revision Checklist 78.
- These definitions were introduced into the code as part of 268.2(a) by Revision Checklist 34. Revision Checklist 78 designated them as individual paragraphs 268.2(b) and (c). The text of the old 268.2(b), introduced into the code by Revision Checklist 34, was deleted from the section by Revision Checklist 78.
- This definition was introduced into the code as part of 268.2(a) by Revision Checklist 39. Revision Checklist 78 designated it as an individual paragraph 268.2(e).
- This subparagraph was originally 268.3 when it was added to the code by Revision Checklist 34. However, it was redesignated as 268.3(a) by Revision Checklist 78.
- 268.6(c) was originally introduced by Revision Checklist 34. Revision Checklist 50 redesignated that 268.6(c) as 268.6(d) and inserted a new 268.6(c).
- The original 268.6(d) was introduced by Revision Checklist 34. Revision Checklist 50 redesignated that paragraph as 268.6(g). That same checklist redesignated 268.6(c) as 268.6(d).
- 268.6(e) was introduced by Revision Checklist 34. Revision Checklist 50 redesignated that 268.6(e) as 268.6(h) and inserted a new 268.6(e).
- 268.6(f) was introduced by Revision Checklist 34. Revision Checklist 50 redesignated that 268.6(f) as 268.6(i) and inserted a new 268.6(f).
- 268.6(d)-(j) were originally introduced by Revision Checklist 34. Revision Checklist 50 redesignated these paragraphs as 268.6(g)-(m).
- 268.6(k) was originally introduced by Revision Checklist 39. Revision Checklist 50 redesignated it as 268.6(n).
- Note that the rule addressed by Revision Checklist 78 (55 <u>FR</u> 22520) makes it appear as if 268.7(a)(3)(iii)-(v) were removed (see page 22687). This was an error and these subparagraphs should remain in the code.
- Initially, subparagraphs 268.7(a)(4)(i)-(iv) were introduced into the code by Revision Checklist 50. Revision Checklist 78 completely changed the text of (a)(4)(i)-(iii) and removed (a)(4)(iv).

- This subparagraph was originally 268.7(a)(4) when it was added to the code by Revision Checklist 34. However, it was redesignated as 268.7(a)(5) by Revision Checklist 50.
- 268.7(a)(7) was originally 268.7(a)(6) on Revision Checklist 50. Revision Checklist 83 inserted a new 268.7(a)(6) and redesignated the old 268.7(a)(6) as 268.7(a)(7). Revision Checklist 83 also redesignated 268.7(a)(7)-(a)(9) as 268.7(a)(8)-(a)(10).
- These subparagraphs were originally 268.7(b)(1) and 268.7(b)(1)(i)-(iv) when they were added to the code by Revision Checklist 34. However, they were redesignated as 268.7(b)(4) and 268.7(b)(4)(i)-(iv) by Revision Checklist 50.
- These subparagraphs were originally 268.7(b)(2) and 268.7(b)(2)(i)-(ii) when they were added to the code by Revision Checklist 34. However, they were redesignated as 268.7(b)(5) and 268.7(b)(5)(i)-(ii) by Revision Checklist 50.
- This paragraph was originally 268.7(b)(8) when it was entered into the code by Revision Checklist 50, but it was redesignated as 268.7(b)(7) by Revision Checklist 78 because the old 268.7(b)(7) and 268.7(b)(7)(i)-(iv) were removed by Revision Checklist 78. Revision Checklist 66 corrected 268.7(b)(8) before it was redesignated by Revision Checklist 78.
- The notice, certification and test requirements currently found in Federal code at 268.7(c)(1) and (c)(2) were originally addressed in paragraph 268.7(c), as introduced into the code by Revision Checklist 34. 268.7(c) was subsequently modified by Revision Checklists 39 and 50. Revision Checklist 39 added the testing requirements now found at 268.7(c)(2), although at the time, these requirements were still part of 268.7(c). It was Revision Checklist 50 that significantly revised the paragraph so that the notice and certification requirements now appear at (c)(1) and the testing requirements appear at (c)(2). The checklist reference column, then, includes all relevant checklists for 268.7(c)(1) and (c)(2), rather than just Revision Checklist 50 which primarily affected the formatting changes.
- Subparagraphs 268.7(c)(3) and (c)(4), introduced into the code by Revision Checklists 50 and 66, respectively, were removed from the code by Revision Checklist 78.
- An error in the September 6, 1989 rule (54 <u>FR</u> 36967) makes it appear that the revisions to 268.8(a) include the removal of 268.8(a)(4). This was not the Agency's intent and 268.8(a)(4) remains in Federal code as introduced by Revision Checklist 50.
- The 268.30(a) introduction appeared in the final rule addressed by Revision Checklist 50, but was not changed by that rule. See Revision Checklist 50 for more information.
- These subparagraphs were originally 268.30(c) and 268.30(c)(1)-(3) when they were introduced into the code by Revision Checklist 34. However, Revision Checklist 50 redesignated them as 268.30(d) and 268.30(d)(1)-(3) because that checklist inserted a new paragraph at 268.30(c).

- These subparagraphs were originally 268.31(b) and 268.31(b)(1)-(3) when they were introduced into the code by Revision Checklist 34. However, Revision Checklist 50 redesignated them as 268.31(d) and 268.31(d)(1)-(3) because that checklist inserted a new paragraph at 268.31(b).
- While this subparagraph appeared in the final rule addressed by Revision Checklist 50, this rule did not change this subparagraph. See Footnote 9, page 28 of Revision Checklist 50.
- Note that there are typographical errors in the <u>Federal Register</u> addressed by Revision Checklist 102. The change from K031 to D031 appears to be incorrect; "D031" should be "K031." There will be a technical correction in the future. Also, after "Appendix I of this part" in column 2 of page 57 FR 8089 for 268.41(a), "for the allowable" appears to have been incorrectly changed to "of the allowable."
- ³⁷ 268.42(a)(3) was introduced into the code by Revision Checklist 63. Revision Checklist 78 removed this paragraph and Revision Checklist 83 added a new 268.42(a)(3).
- ³⁸ 268.42(a)(4) was introduced into the code by Revision Checklist 63. Revision Checklist 78 removed this paragraph.
- The 55 <u>FR</u> 22520, June 1, 1990, code incorrectly states that a subparagraph 268.42(e) is added. The <u>Federal Register</u> did not contain a 268.42(e); it only added 268.42(c) and (d).
- While 268.43(b) appeared in the final rule addressed by Revision Checklist 63, the text of the paragraph was not changed and remains the same as that introduced by Revision Checklist 50.
- Note that 268.44(o) and a table listing wastes excluded from the treatment standards under 268.43(a) were added to the <u>CFR</u> by 56 <u>FR</u> 12351, a notice granting treatability variance for facilities located in Chicago, Illinois. Due to the topic, no checklist was necessary for this notice. As such, this paragraph and table were not included in this consolidated checklist as States would likely not want to include it in their code, unless treatability variance was granted to a facility in that State.
- As background, the TCLP was originally promulgated in 268, Appendix I, on November 7, 1986 (51 FR 40572; Revision Checklist 34) for use in the Land Disposal Restrictions (LDR) program to determine whether certain wastes require treatment prior to land disposal and to determine whether certain treated wastes meet the applicable treatment standards. The TC rule and its June 29, 1990 modification promulgated a revised TCLP at 261, Appendix II, with modifications based on the Agency's own research and public comment. This TCLP is to be used in both the TC and the LDR programs. The objective of the above footnoted revision to 268, Appendix I, is to assure that the TCLP entered into the code by the November 7, 1986 notice (51 FR 40572; Revision Checklist 34) is removed and replaced by the TCLP entered into the code and amended by the final rules (55 FR 11798 and 55 FR 26986) addressed by Revision Checklist 74. The actual placement of the TCLP within a State's code is not that important, per se; what is important is that a State's code contains only the Revision Checklist 74 TCLP.
- Revision Checklist 54 revised the section heading, which previously read "Minor Modification of Permits," to read "Permit Modification at the Request of the Permittee." This was an optional change; therefore a State may

have the old section title if it elected not to adopt the Checklist 54 changes. States should also note that 270.42 was not required by 271.14 to be part of a State's authorized permit program. Thus, only States which elected to have a section analogous to 270.42 at the time of base program authorization need worry about the 270.42 modifications made to this section by Revision Checklists 34, 39 and 54. Revision Checklist 54 removed portions of the code added by Revision Checklists 34 and 39, i.e., 270.42(o) and 270.42(p) and their subparagraphs. However, these sections have been retained in this Consolidated LDR Checklist because the Revision Checklist 54 deletions were optional. The various scenarios for changes to this section are as follows:

- If the State did not include an analog to 270.42 in its base program, all entries for 270.42 shown in this Consolidated LDR Checklist should be disregarded.
- If the State included an analog to 270.42 in its base program and chose to adopt the optional changes in Revision Checklists 39 and 54, the change to 270.42(e)(3)(ii)(B) should be made; the entries on this Consolidated LDR Checklist for 270.42(o) and (p) and their respective subparagraphs should be disregarded (such code will have been deleted); and the new section title should be used.
- If the State included an analog to 270.42 in its base program, but chose not to adopt the optional changes in Revision Checklists 39 and 54, the change to 270.42(e)(3)(ii)(B) should be made; the State should have analogs to 270.42(o) and (p) and their respective subparagraphs as shown on this Consolidated LDR Checklist; and the old section title may be retained.
- Appendix I was introduced by Revision Checklist 54 as an optional modification to Section 270.42. Changes to this appendix addressed by Revision Checklist 78 and 83 are relevant only if a State has modified its code to include Appendix I as per Revision Checklist 54.
- Revision Checklist 78 redesignated item B(1)(b) as item B(1)(c) and added a new B(1)(b).
- Revision Checklist 83 added the footnote symbol to the Class I designation at B(1)(b). Note that both the 1991 and 1992 CFRs have two occurrences of item B(1)(b). The first occurrence (as revised by Revision Checklist 83) is the correct version. The second occurrence of item B(1)(b) is the one added by Revision Checklist 78 (without the Revision Checklist 83 change) and which was eventually removed by Revision Checklist 124.
- Revision Checklist 61 revised and redesignated 270.72(e) as 270.72(b). The Revision Checklist 61 changes are optional, however; therefore, some States may have retained 270.72(e) in their code as introduced by the LDR Revision Checklist 39.
